

Kieren Clark - 3Ks Racing

PRESS RELEASE

Clark to feature in final Ginetta round

Kieren Clark is set to race at Silverstone in the Ginetta G40 challenge, with support from the Silverstone based Formula One hospitality group Aspire.

Clark, a previous Formula Renault champion and British Racing Drivers Club "Rising Star" is to pilot a Ginetta G40, run by the Cheshire based Track Cars Service race team, in the one make series, as a precursor to a full season for Kieren in the 2012 British GT championship. "It's a good opportunity for me get out on track with the Ginettas, the drivers are all fighting for championship places, so it will be a challenge. This year I have been focusing on driver coaching, both sports cars and single seaters, so I will get a good chance to put my teaching into practice."

Kieren has been working with the TCR team all season, who commented, "We are really happy Kieren agreed to race in the last round at Silverstone with us. He's been helping our drivers develop with the Ginetta. We have no doubt Kieren will do a good job for us. He's very committed to helping us get to the top"

"I would like to thank the Aspire group for helping me get to the position of taking part in this race." commented Kieren, "Next season I am focusing on being part of the high profile British GT series. I am talking with teams, and with some very tasty cars on the grid from Ferraris, Audi R8's to Aston Martins, it's really exciting. I am still looking to bring on board a few more partners, who will have the chance to use the GT races as part of their marketing and advertising. With the media interest and TV coverage, the potential is enormous."

Rounds 13 and 14 of the Ginetta challenge will be at Silverstone this weekend, October 8th. Highlights of both races will be shown on MotorsTV the following week.
