

Mazda MX5 Track Day

Car hire and instruction with Kieren Clark

Want to do a track day, but not sure about taking your car on the track? Then use our race prepared MX5 and take advantage of tuition with a fully qualified instructor and top racing driver.

The MX5 is a very easy car to drive on the limit. Fitted with up-rated suspension, race seats, and full harness, you can feel part of the car, and get the feedback on what the car is doing.

From beginners to experienced track day drivers, you will be able to improve and run at your own pace. All you need to do is work out the best location for you and a date, we do all the rest!

Costs are £390 for the car and a full days tuition, plus the cost of the track day. Insurance is available at additional costs. Why not bring a couple of friends and split the costs of the day? With 4 people on an open pit lane event, you usually get over an hour and a half on track each plenty of time behind the wheel, and arranged so you learn in small sessions and get to go back and put the learning into practice - compare that with other organised car circuit days!

Want to use your own car? A full days instruction is £200, you arrange the track day booking.

Tuition with Kieren is about getting what you want out of the day, gaining confidence and experience, at your pace and, importantly, having fun! So what do our customers think of a day on track with Kieren in our MX5?

Unlike other track experiences this one gives you the opportunity to push both yourself and the car right to the limit, while getting excellent confidence inspiring instruction, that really improves your driving skills. *RP*

Kieren's instruction was excellent getting the combination of confidence, adrenalin and fast driving tips just right. *DG*

I really enjoyed the day. To hammer towards a tight corner, knowing that Kieren is going to tell you when to brake, when to turn and what to aim for out of the corner is brilliant. I felt totally confident that Kieren would not let me get into a muddle! At the end of each session I stepped out of the car feeling elated at the drive experience I had. Many thanks to Kieren for a great day out at a very attractive price. *JA*

A great way to improve your driving skills, really pushing through the corners, with clear and confident instruction keeping you on the right lines. Great value for money and much more fun than any of the other track days I have done. I will be back for another day with Kieren. *SC*

The day was a great success. I'm thinking of booking another session to consolidate on what I've learnt. I thought that it was excellent value for money. *OS*

Dates and prices for track days can be found at www.openpitlane.co.uk and click on calendar.
